

zyad mohamed

pentester

I'm Zyad, as a penetration testing and information security researcher for 2 years, I have an understanding of the most common security tools and techniques.

I am looking for experience and exposure to reality in my field (Cybersecurity) as a Junior Penetration Tester, my academic degrees are ok, but I am looking for a job in my future field. I maintain a balance between studying and taking outside courses ,I hope I can get a scholarship as a penetration tester or an internship in a company to enhance my experiences

Experience

I got a summer course from (iti) in cyber security ,

I am one of the core team members in the cybersecurity community at my university,

i'm a ctf player, I participated in competitions as eg-cert/ zinad/blackhat/cybertalents

I received the Egypt Digital Pioneers Scholarship from the Ministry of Communications

Education

computer science cs

8/2021 current

High Technology Institute

GCSEs: computer science - very good GPA: 3.00
